Top Skills

Data Science

Artificial Intelligence (AI)

AI Engineering

Languages

Tamil (Native or Bilingual)

Spanish (Elementary)

English (Professional Working)

Certifications

Machine Learning with Python (with Honors)

Building AI Applications with Watson APIs

Python Project for Data Science

Introduction to Deep Learning & Neural Networks with Keras

Introduction to Statistics

Arignan Sritharan

Self-Taught Enthusiast | Mathematics, Physics, Engineering & Computer Science
Kilinochchi District, Northern Province, Sri Lanka

Summary

A self-motivated learner with a passion for acquiring knowledge across various STEM disciplines. After completing high school, I embarked on a focused and enriching path of self-study. My background spans
Mathematics, Computer science, #Physics, and ♂##Engineering.

Currently, I'm deeply immersed in
Data science, Data analytics
Artificial intelligence /ML Engineering
Full-stack development
#Software Engineering
Cybersecurity and ethical hacking.

My ultimate goal is to become a well-rounded person, leveraging my diverse skillset to tackle complex problems through the power of technology.

Eager to connect, learn, and contribute to the ever-evolving world of technology and science. Let's collaborate and grow together!

_____

Education

Kilinochchi Maha vidyalayam
High school, Physics science · (2018 - 2021)
